

# Israel: Behind the Scenes

## Hands On Missions and Educational Day Trips Like Never Before

Our missions bring the news to life as you experience army life on an IDF base, interact with the people of Sderot and their daily struggles, and join Israeli farmers and provide the produce to needy people around the country.

Connecting means getting up close and personal!

*The IDF - Life on Base*

*The People of Sderot- Life Under Fire*

*Farm the Land*

A Connections Israel day trip brings it all together! It combines adventure, chessed and education through a hands on field trip experience. This trip includes visiting an army base, picking produce in the fields with Table to Table and finally, not just visiting but connecting to Sderot.
