

### Rosh Hashanah Operation 2011

When you are enjoying Rosh Hashana with your family and friends, remember our Chayalim on active duty.

Provide them with a taste of home and a message of support.

Sponsor an edible **mega centerpiece** for a battalion of soldiers including a framed certificate with words of encouragement.

The cost of each centerpiece - **\$260**

### As the anticipated Sept. 19th unilateral declaration approaches:

- The army expects Arab residents of these areas to protest, engage in violence and attempt to illegally enter yishuvim which are now home to some 300,000 Jewish residents.
- The IDF has been hosting special training sessions for first response units of the Yosh (Yehuda and Shomron) communities, and for security officers of these communities.
- The military has already finalized plans for calling up some tens of thousands of reservists if necessary, towards stationing combat soldiers and officers throughout Yehuda and Shomron to prevent a state of anarchy.

These tens of thousands of soldiers on active duty will be celebrating the holidays without family, friends and community.

**Let them know we appreciate what they are sacrificing so that we don't have to.**
